**USAID FUNDING FOR PROJECTS
REPORTING NUTRITION ACTIVITIES
FOR HEALTH AND CHILD SURVIVAL**

The information in this document is based on reported nutrition activities for Health and Child Survival, and does not represent the entire USAID Nutrition portfolio.

The Health Projects Database (HPD) is a comprehensive inventory of health related projects that have been funded by the U.S. Agency for International Development (USAID) since 1975. Supported by USAID's Office of Health, Bureau for Science and Technology, the HPD tracks bilateral, regional and centrally-funded projects and sub-projects with a health component, including child survival, AIDS, nutrition, water supply and sanitation, and other health related activities. Projects are identified for the HPD through the annual Health and Child Survival Questionnaire, Annual Budget Submissions (ABS), and the Congressional Presentation (CP). The HPD includes some, but not all, health and nutrition related projects funded with local currency (PL 480) or Population Account monies. Project Development and Support (PD&S) funded activities are included in the HPD when they have been identified as health related in the CP, ABS or questionnaire. Large urban water supply and sanitation projects are maintained in a separate database and are not included in the HPD.

This report includes four tables and project listings which document Nutrition activities for Health and Child Survival for Fiscal Years (FY) 1989, 1990 and 1991 as recorded in the HPD. Tables 1 and 2 summarize USAID funding for these Nutrition activities by intervention, and by region and funding account. The third and fourth tables provide the amount of funding for these activities which is attributed specifically to the USAID child survival program, also by intervention, and by region and funding account. The project listings contain the amount of funding in each project with nutrition activities by fiscal year, region, country and funding account.

The funding amounts reported here are calculated amounts, based on fiscal year obligations reported in the CP and on percentage attributions for nutrition reported in the annual Health and Child Survival Questionnaires and in the USAID Activity Code/Special Interest (AC/SI) System. Specifically, final obligations for FY89 and projected obligations for FY90 and FY91 are from the 1991 CP. ARI and child survival percentages are reported from the 1989 questionnaire and the AC/SI system.

Child survival grants to Private Voluntary Organizations (PVOs) funded by the Bureau for Food for Peace and Voluntary Assistance (FVA) are allocated to the regions in which each PVO is working in FY89, and included under "GLOBAL" in FY90 and FY91. On Tables 1 and 3, the "MATERNAL NUTRITION" activity is a part of a larger activity, Maternal Health/Nutrition, in both the AC/SI System and the 1989 Health and Child Survival Questionnaire. The funding reported on these tables for "MATERNAL NUTRITION" is one-half the total of the reported Maternal Health/Nutrition activity.
